

TORXX KINETIC PULVERIZER ANNOUNCES IFG ASSET MANAGEMENT AS EXCLUSIVE FINANCIAL ADVISOR

Hamilton, Bermuda (February 21, 2024) – TORXX Kinetic Pulverizer Ltd (“TORXX KP” or the “Company”) is pleased to announce a strategic partnership with IFG Asset Management (“IFG”) as the Company’s exclusive financial advisor to support the Company’s strategic growth initiatives and advise on financing alternatives. IFG has a focus on private sustainable Real Assets, with extensive experience in the areas of waste management, recycling, and the broader circular economy from working on innovative waste-to-value initiatives.

"We are excited to announce our partnership with IFG Asset Management as we embark on the next phase of our growth. Their expertise aligns seamlessly with our commitment to driving innovation and sustainability in waste management and recycling technology. We are delighted to add IFG to the team and look forward to expanding our relationship as we continue to grow the business and deliver on our commitment to roll out a best-in-class solution for our customers" said Peter Everson, CEO of TORXX Kinetic Pulverizer Ltd.

The TKP process results in increased revenue through streamlined processes and a homogenised output that increases the value of the end product. As a result, it can also reduce costs for many materials processing applications, such as waste-to-energy processes, construction & demolition, composting and materials recycling. The multi feedstock capability of the TKP makes it an economical choice when used to process different feed stocks on a single site rather than having to use two or more traditional machines to achieve the same outcome.

"We are pleased to announce our partnership with TORXX KP and look forward to supporting the Company as they navigate this exciting period of transformational growth. With extensive experience working on waste-to-value initiatives, we are uniquely positioned to assist TORXX KP execute on their strategic growth initiatives and sustainability objectives. With a shared commitment to supporting advancements in waste management and recycling technology that promote the circular economy, we couldn't be happier to join the team" stated Eric Edwards, Managing Partner at IFG Asset Management.

About TORXX Kinetic Pulverizer Ltd

TORXX KP is a leader in waste management and recycling technology. The TORXX Kinetic Pulverizer[®] (TKP) (patents and patents pending) is a new generation of equipment in waste management and recycling technology. It right-sizes a recycler's output and lowers its cost of ownership with a more reliable and durable technology. The TKP is a powerful machine that smashes input materials against themselves at high speed, thereby pulverizing hard materials and tearing softer materials into a fluff, creating a smaller output than traditional shredding equipment.
